

MA 122 Calculus 1

The calculus saga begins

Lia Vas, Ph.D. STC 244
l.vas@usciences.edu

MA122 is a standard 4-credit first calculus course covering: **limits, derivatives and integrals.**

Why 4 instead of 3 credits of calculus?

Extra hour per week offers time to

- understand the material better
- practice more before exams
- explore more applications of calculus
- gain experience with Matlab

If you want to continue taking calculus courses MA122 is recommended over MA110.

Considering

Mathematics Minor? MA122 is also recommended over MA102 as a prerequisite for the mathematics minor. The minor consists of 4 required and 2 elective courses. More info: Lia Vas, STC 244 l.vas@usciences.edu

Prerequisites. MA 104 Precalculus (Mathematical Analysis I).
