

Calculus 1

The calculus saga begins

Lia Vas, Ph.D.
STC 244
lvas@sju.edu
liavas.net

This is a standard 4-credit first calculus course covering:

**limits,
derivatives and
integrals.**

Why 4 instead of 3 credits of calculus?

Extra hour per week offers time to

- understand the material better,
- practice more before exams,
- explore more applications of calculus,
- gain experience with Matlab.

If you want to continue taking calculus courses MAT 161 is recommended over MAT 155.

Considering Mathematics Minor?

The minor consists of six mathematics courses. More info: Lia Vas, STC 244 lvas@sju.edu

Course prerequisites. Precalculus (MAT 120) or placement.
